Hunter has been a fantastic intern at the nutrition center. He is an incredibly fast learner and a very efficient worker. He has gone above and beyond by learning how to deliver browse by himself, helping/learning how to pull meat/fish at the end of the day, completing a research project on the Cuban Iguana, and by shadowing in other areas. He's learned how to use ZooDietNavigator and gained access to ZIMs, which very few interns have done in the past. Everyone in the nutrition center has been impressed by the quality and efficiency of his work as well as his additional work on the nutrition project. I can't wait to see what he accomplishes in the future!
